(Public Relation Cell)

Press Note (06th July 2020)

1. AIIMS Bhopal – Improvement in health status of a 90-year-old COVID19 patient.

A 90 year old female presented to COVID19 screening OPD on 27.06.2020 with complaints of fever, cough and shortness of breath. She was suspected of COVID 19, hence admitted in COVID suspected ICU for investigations and initial management. She was shifted to COVID19 ICU when her COVID 19 report came positive and treatment initiated as per COVID19 protocol. For effective management Oxygen was provided through non-invasive therapy of Oxygen using High Flow Heated Humidified Nasal Cannula (HHHFNC). She was on HHHFC with high flow oxygen since 03.07.2020 and as her condition improved; she was shifted from High Flow Heated Humidified Nasal Cannula to Nasal Prongs with 1-2 litres of Oxygen. After supervising her for two days, she was transferred from ICU to Ward for further management on morning of 05.07.2020

The recovery of this patient as compare to elderly patients in other institutes, the outcome has been a morale booster for all health care professionals working in AIIMS Bhopal.
